MANUFACTURING AWARENESS

TRAINING PACKAGES

LEARNING PLANS FOR MANUFACTURING JOB ROLES
Training Packages from Tooling U-SME offer quick-start, progressive road maps in various functional areas that allow manufacturers to build career paths for employees. They are intended to enhance your existing OJT and help you create a job progression plan. Unlike many other training programs, these packages require minimal preparation. They are efficient, effective training, developed with input from manufacturing experts.

FLEXIBLE AND CONVENIENT
Online classes are self-paced, typically taking 60 minutes to complete. They are easily and conveniently accessible on desktops and laptops, and on tablets and phones with the Tooling U-SME app.

Manufacturing Awareness introduces basic concepts in the following functional areas:
- Manufacturing Fundamentals
- Assembly
- Composites
- Machining
- Maintenance
- Stamping/Forming/Fabrication
- Welding

Training Packages offer:
- Content developed by industry experts
- Accessible anytime, anywhere
- Self-paced
- Predefined curriculum for each job role
- Engaging and interactive content
- Pre- and post-training knowledge assessments
- Access to Tooling U-SME’s Learning Management System (LMS)
- Guidance from our Client Success team, including advice, insights, and ideas built on best practices and years of experience
